

**The Gen 1:14-17 Creation-Solar-Stars Calendar**

High Biblical Days for 2023  
(as we understand it)

[www.inthatday.net](http://www.inthatday.net)

Melchizedek Biblical Solar Calendar

On the biblical solar-star calendar the falling of the High Days and Sabbaths is precisely the same pattern and count every year with no "leap year" intercalations necessary

Biblical High Days & Weekly Sabbaths And Apostolic Testimony of Yahoshua's Sign Of Jonah

Note: Gregorian calendar dates and days change each successive year, but Biblical calendar day counts do not change.

Zaddok calendar precept: The occurrence of the equinox is day 1 of the new year and day 4 of the biblical week according to the law of the creation of the luminaries on the 4th day of the week - Gen 1:14-19

Expected Observed Sun Dial Vernal Equinox date for 2023, Jerusalem meridian = 9.50 am, 21st March 2023 ("mean sun" equinox calculation = 09:24:21 PM, 20th March). Expected Observed Sun Dial Autumnal Equinox = 23rd Sept 2022 (Mean sun average (calculation) = 23rd Sep 2022, 07:49:06 AM

**Note: True sun observation vs Mean sun estimates: What is The Difference?**

It is important to know the difference, especially if you have been unable to identify the sun dial observation due to cludy conditions!

All listings of the occurrence of the equinox on typical published calendars is a mathematical estimate - known as the "mean sun estimate" an average estimation from a standardised mathematical formula.

When our common published (Jerusalem time) calendar presentation of the "mean sun estimation" of the equinox is calculated as occurring (Jerusalem Longitude) in late night after dusk, then our research is that the actual true sun observation of the equinox as would be practically observed on a sun dial (the tell-tale straight line), would be expected to occur on the very next day following, when the sun is shining.

With this understanding one can still identify when the actual day of the true observed sun occurrence of the equinox would occur from what is mathematically estimated mean sun calculation for Jerusalem as presented on common yearly calendars.

**Biblical Weekly Sabbath Days**

1	Month 1		Gregorian 2023
2			
3	Festival Day count		
4	1	Equinox (True Sun Observation - Jerusalem meridian)	Tuesday 21st March
5	2		22
6	3		23
7	4	Weekly Sabbath	Friday 24th Mar
8	5		25
9	6		26
10	7		27
11	8		28
12	9		29
13	10		30
14	11	Weekly Sabbath	Fri 31st March
15	12		1st April
16	13		2
17	14	Passover Meal (Evening)	Mon 3rd April
18	1	Unleavened Bread Day 1	4
19	2		5
20	3		6
21	4	Weekly Sabbath	Fri 7th April
22	5 (Omer Count - day 1)	FEAST OF FIRST FRUITS - Day 1 of Omer Count	Sat 8th April
23	6(2)		9
24	7(3)	Unleavened Bread Day 7	Mon 10th April
25	(4)		11
26	(5)		12
27	(6)		13
28	(7)	Weekly Sabbath	Fri 14th April
	(8)		

... Omer period = 50 days

(48)

(49)	Weekly Sabbath (7th to Feast Of Weeks)	Friday 26th May
7 sabbaths / 50 day count from Sat 8th April	FEAST OF WEEKS	Sat 27th May

: Autumnal Equinox - 23rd Sept 2023

Festival Day count : Gregorian 2023

weekly sabbath	Month 7, Day 1	Weekly Sabbath	Friday 22nd Sept
1	1	Equinox (Expected Observed Sun - Jerusalem, longitude) Feast Of Trumpets	Sat 23rd Sept
2	2		24
3	3		25
4	4		26
5	5		27
6	6		28
7	7	Weekly Sabbath	Friday 29th Sept
8	8		30
9	9		1
10	10	DAY OF ATONEMENT	Monday 2nd Oct
11	11		3
12	12		4
13	13		5
14	14	Weekly Sabbath	Friday 6th Oct
15	15 (1)	Day 1 Tabernacles	Saturday 7th Oct
16	16(2)		8
17	17(3)		9
18	18(4)		10
19	19(5)		11
20	20(6)		12
21	21(7)	Weekly Sabbath	Friday 13th Oct
22	22(8)	Day 8 Tabernacles	Monday 15th Oct

Expected True Observed Sun Equinox Jerusalem Meridian on 21st March 2023. (Mean sun estimate of Jerusalem 21st Mar 10:24 a.m. IST) Time & Date.com

Zaddok precept: Weekly Sabbath day identified on the 4th day of the week from the occurrence of the equinox according to creation account of the Sun - Gen 1:19

Sign Of Jonah: The women discovered the Empty Tomb in the dawn of the 1st day AFTER the weekly sabbath. Thus Yahushua would have been resurrected after the 3 days and nights and sometime during the Weekly Sabbath Day or Night.

Matt 12: 40 For as Jonas was three days and three nights in the whale's belly; so shall the Son of man be three days and three nights in the heart of the earth.

John 2:19 Yahoshua answered and said unto them, Destroy this temple, and in three days I will raise it up.

Matt 28: 1 ¶ In the end of the sabbath (after the Sabbath), as it began to dawn toward the first day of the week, came Mary Magdalene and the other Mary to see the sepulchre.

..6 He is not here: for he is risen,

See Note #### below: Position of First Fruits.

The last Dead Sea Scrolls fragment recently translated (2018) describe Shavuot as counted 50 days after the first weekly Sabbath following the Passover - that means the Feast of First Fruits is thereby identified because that is day 1 of that 50 day count, (confirms Lev 23:15)
